At Ocean Academy we strive to offer a balance to our children between clubs that are either just for fun, training to be competitive or developing an interest/skill.

Squads are designed to provide competitive opportunities to children that are talented in specific areas and passionate about training towards a high level of performance. The teams train towards competing in local leagues and tournaments that can allow progression to county level. There is a robust selection process in place to identify these children and give them an invite.

Children that aren't ready for squad training yet, have opportunities to work on developing their skills and knowledge in areas of interest to them. We work closely with CASA and other providers to provide this opportunity and identify children that become ready for squads over time.

Other school clubs focussed more on fun, or developing a skill/knowledge, generally run on a first come first served basis with waiting lists but also by inviting children identified by staff for a range of reasons.
